

Litter and trash pollute the rivers fish and insects live in

**STRESSOR CARD**

Clean Water

Homeowner digs out stream with backhoe destroying fish habitat

**STRESSOR CARD**

Conserve Habitat

Algal blooms decrease oxygen so fish can't breathe

**STRESSOR CARD**

Save the Bay

Vegetation along streams filter out excess fertilizer

**SOLUTION CARD**

Clean Water

Tress along the stream feed the insects so fish can eat them

**SOLUTION CARD**

Conserve Habitat

No livestock in the stream equals less sediment and waste

**SOLUTION CARD**

Save the Bay

A homeowner pours oil down the street drain, which connects to a stream resulting in a fish

**FISH KILL CARD**
